Licensing for Total County

Licensing for a total county is based on the number of elementary schools.

From 1-25 elementary schools the licensing fee would be \$15 per elementary school.

Above 25 elementary schools, the fee becomes \$10 per elementary school but not to exceed \$1000.

From the total fee, \$35 will be deducted for each school previously licensed.

Once licensed, the license would also cover the middle schools and high schools.

Most of this music is applicable for beginning and intermediate students at all grade levels.
